

Journey for a Lifetime

Thanks to the commitment, good-will and passion of our international volunteers, Coalition for Kids International and Fundacja Dziecieca Fantazja are able to make even more dreams come true for terminally ill children in Poland. Since 2004, over 4,000 beautiful children's wishes have been granted.

On August 6, 2015, Christina, Emily, Ethan, Hannah, Hillary, Katie, Laurel, Lorelei, Lavinia & Rhyl departed on their 12 day Journey for a Lifetime. After 2 days in Berlin, Germany, being immersed in the history and culture of this powerful city they began their life-changing experience in Poland. The students split into two groups - each group travelling over 1000 km - **to meet 26 terminally-ill children in their homes to personally deliver their humble wishes.**

They would bring joy and happiness to the children, their families and caregivers - and to countless other sick children they met in hospitals. They would change the lives of many - including their own.

The children's wishes are very humbling - for most of them, their greatest joy is knowing that someone cares.

We would like to share this photo extract of their journey with you. Every picture tells a story...

Thank you!
