

# Journey for a Lifetime

On March 12, 2017, 13 students from York House School, Vancouver, 5 students from various schools in Halifax and 1 student from Royal St. George's in Toronto departed on their 13 day Journey for a Lifetime. After spending 2 days in Berlin, Germany, the students split into 3 groups. They travelled across Poland and collectively met 37 terminally-ill children in their homes to personally make their wishes come true.

They brought joy and happiness to the children, their families and caregivers. They would change the lives of many - including their own. The children's wishes were very humbling - but for most of the children their greatest joy was knowing that someone cares.

Click the Coalition's timeline link below to view some of the photos from their amazing experience...
